

Trying to determine which career is best for you, then our **Career Exploration Services** can help you!

Recommended Services to get you started:

- Identify your interests, skills, abilities and work preferences so you can target a job search that is right for you.
- Explore career opportunities that match your interests. Use our library and internet access to locate career exploration resources.
- Sign up for workshops focused on helping you figure out what kind of job you may want and how to get it. Learn from others just like you who are creating their future, too!
- Scan the Michigan Talent Bank to find at least five types of jobs that peak your interest. List the skills needed for those jobs so you can see which ones you have and which ones you will need to build.
- Consult with Michigan Works! Representative to develop a career plan. Get the guidance to help match you to a career.
